

Dokumentasjon av litteratursøk for VBP

Til søk for VBP utfører vi søk i de basene som er beskrevet nedenfor, dette etter avtale med Sidsel R. Børmark, Leder Klinisk Dokumentasjon Sykepleie (KDS) - DP Løsning Regional EPJ.

Vi søker i et begrenset antall databaser, de fleste er kilder for oppsummert forskning. I databasene som også inneholder enkeltstudier - PubMed/Medline og SveMed+: vi søker først og fremst etter systematiske oversikter og/eller etter artikler publisert i diverse nordiske sykepleietidsskrifter, se kommentar ved disse basene under.
