

Dokumentasjon av litteratursøk for VBP

Til søk for VBP utfører vi søk i de basene som er beskrevet nedenfor, dette etter avtale med Klinisk Dokumentasjon Sykepleie (KDS) - DP Løsning Regional EPJ.

Vi søker i et begrenset antall databaser, de fleste er kilder for oppsummert forskning. I databasene som også inneholder enkeltstudier - PubMed/Medline og SveMed+: I PubMed/Medline vil vi ofte begrense søket til mulige systematiske oversikter/retningslinjer, og i SveMed+ vil vi gjerne begrense søket til artikler publisert i diverse nordiske sykepleietidsskrifter.

Problemstilling	Hvordan kvalitetssikre god sykepleie til pasienter med tuberkulose?
